R4BLP**

REGIONS for  
BIODIVERSITY  
Learning Platform

## Principles for the Regions for Biodiversity Learning Platform

- **Inclusiveness and diversity** – The R4BLP is open to all regions, despite the stage of the development of their BSAPs.
- **Multilateral exchanges** - The R4BLP breaks the paradigm that only North hemisphere regions have technical knowledge to offer. The platform values the contributions of both North and South Hemisphere regions and creates learning spaces for transversal and multilateral exchange.
- **Collaborative and participatory** - The R4BLP stimulates regions to think and work collectively over specific obstacles and challenges.
- **Actions on the ground** - The R4BLP considers the learning trajectories of each region to support the elaboration and

United Nations Decade on Biodiversity

Convention on  
Biological Diversity
